Subject: Air Monitoring

Mike, air monitoring equipment has been installed on the river, and today it was being installed on the Township portion of the park. Tomorrow (Tuesday) it is our intention to install the rest of the equipment in the County portion of the Park, and to turn on the pumps to begin the first 24 hour sampling period. I will keep you informed as this progresses. Please advise if you want to send anybody to look at the installations before we turn them on.
